A NOTE ON OUR WINE we feature natural wine (except where noted), it being organic or biodynamic, with the use of local yeasts for fermentation. Many wines are "spontaneously fermented", which simply means using the yeasts residing naturally on the grapes, and many are unfiltered without excessive use of oak. Generally, natural wines are less manipulated so as to let the grapes and their environs shine, often somewhat randomly. Curated by Mark Bires, not a sommelier but a known wino. All reds are kept at cellar temperature of ~57°. Glasses are ~6 ounce pours.
